

TASTE-SAFE SAND

MESSY & TASTE-SAFE

A great activity for anyone who likes to play in the sandpit, with an added bonus of it being taste-safe. Make different sized sandcastles, write your name in the sand, bury your hands or even make your own beach scene with umbrellas and deckchairs - the possibilities are endless!

STEP 1

Set up!

Get a big container or bowl to mix everything up and also a large tray for when you're ready to play.

STEP 2

Add in equal parts of brown sugar and cornflour.

Mix it up, so it's nice and even.

STEP 3

Add in your vegetable oil, little by little. Keep adding and mixing until you get a good sand texture (test out a sandcastle!)

STEP 4

Tip all the sand onto your tray.

Add yoghurt pots, sticks, straws or anything you like and you're ready to play!
